

# TrendReader 2

## Software Specifications

**Type:** Software for SmartReader, SmartReader Plus, IAQ, OWL, TRH, JR and Nautilus Data Loggers

TrendReader 2 is a powerful, versatile, and easy-to-use software package designed exclusively for ACR's SmartReader Plus, SmartReader, IAQ, OWL, TRH, JR and Nautilus data loggers. Powerful features and easy setup enables logged data to be collected and thoroughly analyzed in seconds.

### DOWNLOADING AND COMMUNICATING WITH DATA LOGGER

Setup, download and view information from a single data logger with ACR's IC-102 interface cable (included in software interface package). Connection is simple: plug the interface cable into the USB port of your computer and connect the other end to the logger. No tools, cards or docking stations are required.

### SETTING UP DATA LOGGER

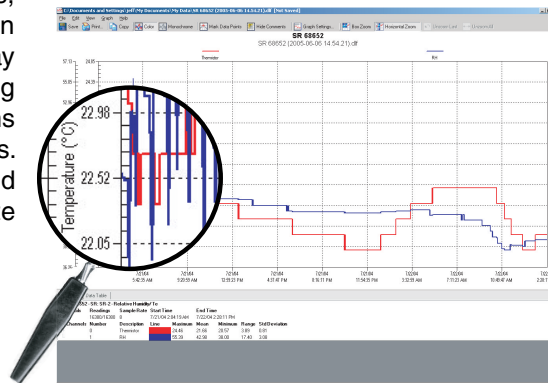

With built-in menus for sample rate and mode, start delay, equations and more, logger setup is fast and easy. In addition, equations are already included for all ACR sensors so you need only select the appropriate equation from the menu or customize your own equation. Real-time readings are displayed in the Setup window, allowing you to verify that your logger is working correctly before placing it in the field.

Logger Setup

### VIEWING DATA

With TrendReader 2, data can be viewed in table or graphical format. For presentation purposes, view data in graphical format or for a more detailed analysis, view data in table format. Either way, multiple channels of data can be displayed at once. Multiple graphs can be displayed at once and compounded to create new graphs. For added presentation power, add comments, change graph colors, zoom in on specific portions of data, and display your data using custom engineering units. Print or copy and paste graphs into your reports and presentations. Select all, or portions of the table and copy and paste into your favorite Windows program.

### EXPORTING DATA

Use the export function in TrendReader 2 to export your data to other programs for further analysis. Data can be exported in TXT, BMP, PDF, JPG or CSV formats.

- ### FEATURES
- Quick and simple communications
  - Fast and easy logger setup
  - One-touch table views
  - Presentation-quality graphs
  - Export capabilities

Model#:	Cat#:
TR2 w/IC-101	01-0225
TR2 w/IC-102	01-0226
TR2 w/LIC-101	01-0227
TR2 Full Install	01-0228
TR2 Upgrade	01-0229

### System Requirements

- Pentium II-350MHz or faster Processor
- Windows 2000 SP4 or XP SP2
- 250 MB of available hard drive space
- 128 MB of RAM (256MB recommended)
- At least 1 communications port; either USB or serial depending on logger interface cable
- Mouse or other pointing device
- Internet Explorer 6 or higher
- Screen resolution of 1024 x 768 or higher for optimal viewing results
